SUMMARY

B.Tech graduate in Artificial Intelligence and Data Science with strong command of Machine Learning, Python, and predictive modeling. A disciplined problem-solver experienced in building AI-powered, full-stack, and data-driven solutions.

PROJECTS

DataForge AI – Data Preprocessing & Model Training Platform *React.js, FastAPI, Python*

- Developed a full-stack AutoML platform to automate data preprocessing, feature engineering, and machine learning workflows.
- Built REST APIs using FastAPI for dataset upload, preprocessing, model training, and prediction.
- Designed an interactive React.js dashboard for dataset management, model training, and result visualization.

Enterprise Knowledge Assistant (RAG) *Python, FastAPI, LangChain*

- Built an AI-powered Enterprise Knowledge Assistant using Retrieval-Augmented Generation (RAG) to answer questions from enterprise documents.
- Developed a document ingestion pipeline with chunking, embedding generation, and metadata management.
- Implemented semantic search using Sentence Transformers and ChromaDB for accurate information retrieval.

Movie Recommendation System *Python, Pandas, Scikit-learn, Django*

- Developed a machine learning-based movie recommendation system using Collaborative and Content-Based Filtering.
- Applied TF-IDF and user-rating similarity to generate accurate and personalized movie recommendations.
- Integrated the recommendation engine into a Django web application for interactive user experience.

Wedding Hall Booking Website *Django, HTML, CSS, MySQL*

- Developed a responsive wedding hall booking web application using Django, HTML, CSS, and Bootstrap.
- Implemented user authentication, hall booking management, and MySQL database integration.
- Designed an admin dashboard to manage halls, bookings, and customer feedback efficiently.

EDUCATION

B.Tech in Artificial Intelligence and Data Science **Nov 2022 – Apr 2026**
Karpagam College of Engineering

- GPA: 7.09 / 10

Higher Secondary (CS-Maths) **Sep 2021 – May 2022**
Rotary Club Matriculation Higher Secondary School

- GPA: 6.5 / 10

SSLC **Jun 2019 – Mar 2020**
Rotary Club Matriculation Higher Secondary School

- GPA: 7.2 / 10

SKILLS AND CERTIFICATIONS

- **Languages:** Python, HTML, CSS, React.js, SQL
- **Technical Skills:** Pandas, Scikit-learn, NumPy, Seaborn, Matplotlib, TensorFlow, Streamlit, Gradio, Hadoop, Apache Spark, Django, MongoDB
- **Tools/Platforms:** Tableau, Git, Docker, Jupyter Notebook, VS Code, Google Colab
- **Certifications:** Qlik Sense Business Analyst (Qlik)
- **Awards/Activities:** Presented research paper "Deep Learning Techniques for User Authentication in Medical IoT Applications" at IEEE Conference, NIT Puducherry
- **Soft Skills:** Analytical Thinking, Problem Solving, Teamwork
